

VersionTracker Pro Quick Start Guide

Version- Windows 3.5

For the latest documentation, download and FAQs please visit:
<http://www.versiontracker.com/faq>

1. Welcome to VersionTracker Pro

VersionTracker Pro gives you an automated, simple and cost-effective way to inventory and keep all your software and drivers current and secure... big IT department not required. VersionTracker Pro has three primary components:

- VersionTracker Pro software- automatically tracks your installed software and notifies you when new updates are available.
- All the advanced My Tools features on VersionTracker.com- including email alerts, an online watch list and more.
- Custom view of VersionTracker.com- turn off all site ads and more.

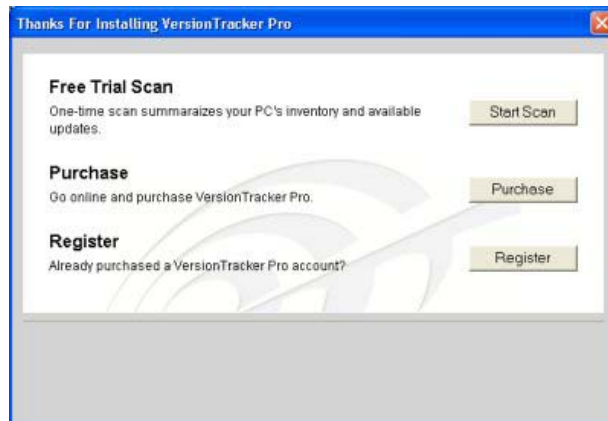

Quick Tip- To access your online features, go to <http://www.versiontracker.com/tools> and login.

2. VersionTracker Pro- Windows Software

Just follow these steps to get started. For installation of the Macintosh software refer to the appropriate Quick Start Guide located at <http://www.versiontracker.com/faq>.

- A. To install VersionTracker Pro, double-click the installer and follow the onscreen instructions. In the last installer step, make sure the “launch the program” option is checked before you click “Finish”. If you are upgrading from an earlier version, go to step C below as your registration information will automatically be retained.
- B. When you launch VersionTracker Pro for the first time, a dialogue window will pop up labeled “Thanks for Installing VersionTracker Pro”.
 - B1- To Register- If you purchased VersionTracker Pro online from our website, click the “Register” button and enter the email address and password that you used to create your account. Then click “Ok”. (Go to Step C below)
 - B2- To Purchase- If you don't have a VersionTracker Pro account, click on the “Purchase” button and you will go online to purchase. After purchasing, complete step “B1” above.
 - B3- To Try- If you would like a free trial scan, click on the “Start Scan” button.
